Subject: RE: Video Recording 2/10/13

No one has stepped up yet. We would like to have a presence on CVC for Feb. 10.

Subject: Video Recording 2/10/13

I will be away the morning of February 10. As a result I am looking for someone to record the church service that day. There are several possibilities:

1. Use the CVC equipment to record and edit.
2. Use your own equipment to record and edit. Your audio equipment must be compatible with the church's audio feed (or perhaps I have something that will be a go-between).
3. Use your own digital equipment to record, and I will edit.
4. Borrow my equipment to record, and I will edit probably Sunday afternoon.

Please let me know whether or not you can do this or know anyone else who can.
